Your citizens want...

More Transparency | Better Technology | Information at Their Fingertips

TheFireDepartmentApp.com provides them all.

We've developed custom iOS and Android apps for fire departments and other public safety organizations across the country for over nine years. In fact, we've built more custom public safety apps than any other company, making us the app developer of choice for public safety! Give your citizens the app they both need and deserve. We want to learn about the needs of your department and community to create a custom smartphone app that will help you gain more transparency in your community.

Features Include:

- Station Locations*
- Checklist
- Training
- Push Notifications*
- News*

- Directory
- Calendar of Events
- Appearance Request
- Social Media*

*Integration with existing feeds/providers available for additional fee.

"We recognized that to be a world-class department, we had to make sure our citizens had access to the information they needed in the fastest and easiest way possible. With the changes in technology, we realized an app was a resource for our citizens and a tool for our department to accomplish that goal for our community."

Chief William Swann
Nashville Fire Dept. (TN)

Our **Process**

Strategy

Our team of communication strategists will work with your organization to determine your specific needs and how they can be met with an app.

Design

Our designers will develop the best design to present your information, making the app both helpful and easy to use for your citizens.

Development

Our team of developers will work to bring the app to life, implementing the previous design into a unique mobile solution.
