CUSTOM APPS

CALL TODAY: 800.381.8321

Your citizens want...

More Transparency | Better Technology | Information at Their Fingertips

ThePublicHealthApp.com provides them all.

At ThePublicHealthApp.com, we know that you are constantly thinking about better ways to keep your citizens informed and engaged, from health and wellness initiatives to public health information, restaurant ratings and more. We also know that a custom smartphone app is the best way to ensure those individuals get the information you know they need.

We're ready to learn about your organization's needs so we can help you reach your citizens where they are: their smartphone.

What apps do we create?

- County Health Departments
- Health and Wellness
- HIV / AIDS
- Addiction Resources
- WIC Agencies
- Many More!

Integration with existing feeds/providers available for additional fee.

"Previously I struggled with getting information out, such as paid advertising and Facebook. I thought an app would help us reach a larger part of the population. Things are changing so fast, and through our app we have a way to easily update our information and get it into the hands of our community everyday."

Heidi Bond, Director
Otsego County Department of Health
