

Platforms

Godwin 8' to 26' platform (flatbed) bodies

Godwin platform bodies are manufactured using mill certified 50K steel, and protected with the industry's most durable coatings.

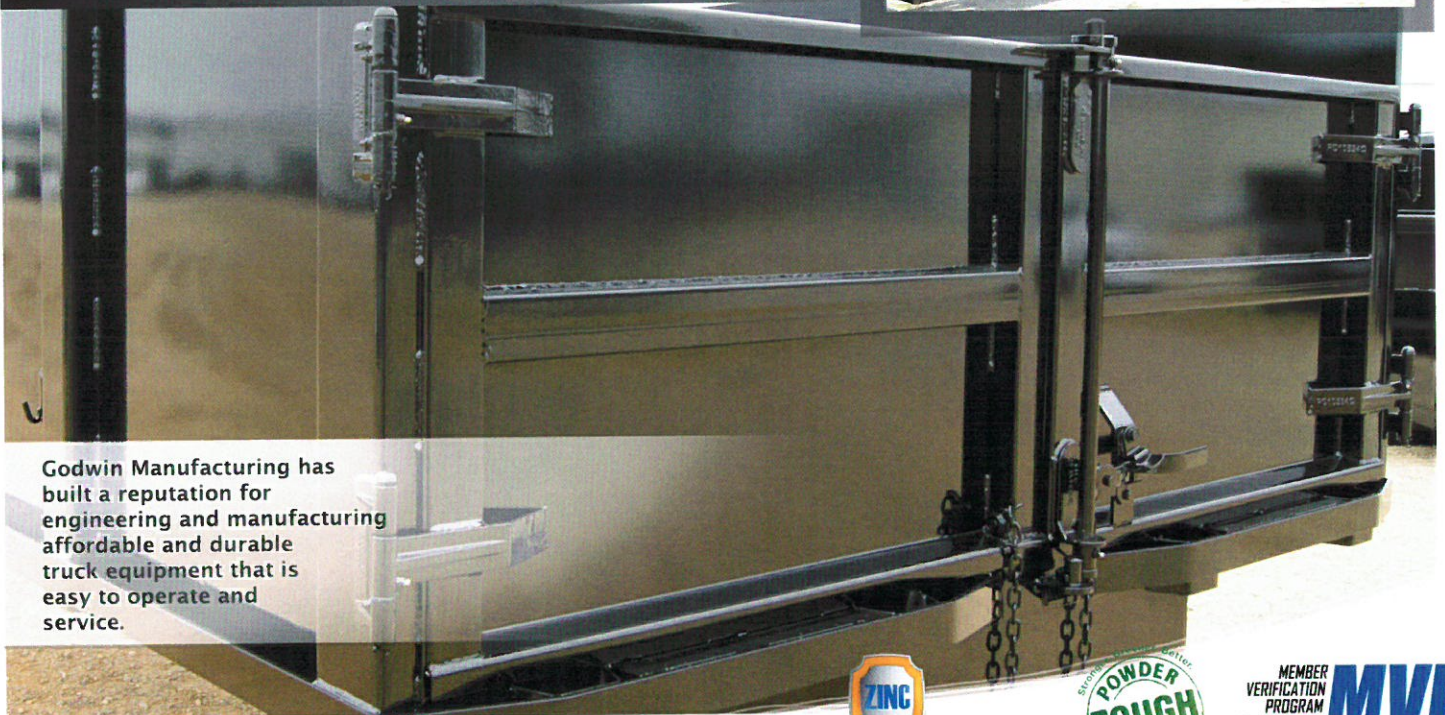

Standard Specs & Features:

- Manufactured using only mill certified 50K (50,000 psi) high tensile steel
- High tensile 3/16" one piece steel floor (up to 20')
- Thermoset powder coated zinc primer with powder coated top coat (best in the industry)
- 3/8" x 2.5" flat bar rub rail with integral 2" x 4.25" ID outside pockets
- 10' to 13' platforms feature a heavy duty stacked understructure that utilizes 6" structural channel longitudinals, and 3" structural channel cross-members on 12" centers
- 14' to 26' platforms feature 7" structural channel longitudinals, and 4" structural channel cross-members on 12" centers
- Grommeted LED marker lights
