# DRAG PRO®

## TIME SAVED IS MONEY EARNED

The BOSS DRAG PRO® brings power and productivity to the back of your truck. The DRAG PRO® mounts from the rear, allowing you to pull snow from the back while clearing large areas like commercial parking lots. Expand the hydraulic folding wings up to a maximum of 16' to clear more snow with each pass—saving time and money. The down force of the plow helps the DRAG PRO® scrape more cleanly and efficiently than traditional plows, especially in wet snow. Pair with BOSS V-plows, straight-blade plows or EXT plows for the ultimate plowing rig.

# STANDARD FEATURES

- **Hydraulic Folding Wing Models** expand plow width from 8' to 12' or 8' to 16'.
- **Independent Wing Control** is featured on expanding wing models with hydraulic relief protection.
- **Low-Profile Coupler Design** allows for unobstructed tailgate use and visibility.
- **Easy Attach/Detach** saves time for quick operation on 4WD, ¾-ton and 1-ton trucks.
- **High-Performance Hydraulic Package** delivers reliability and speed.
- **Hydraulic Flow Control Valve** allows adjustment of the raise/lower speed.
- **Steel Blade Cutting Edge** and urethane wing edges are included.
- **Molded-In Urethane Snow Catchers** ensure no snow is left behind when plowing.
