## FLASHING BEACON SERIES 118-D12

The 24/7 Flashing Hazardous Warning Beacon features two 12 inch ultra-bright amber colored LED units to draw drivers' attention to warning signs. The beacon is solar powered which allows the freedom to locate or relocate a sign any where it is needed without the hassles or wired systems or monthly power bill.

A Clean and Clutter-Free Control Box. K&K Systems utilizes just 2 components to operate the 24/7 Flashing Beacon Series – a sealed battery and the K&K Systems' compact all-in-one solar controller, the SPLasher™. Our design retrofits easily to any existing sign with worry-free maintenance.
