

Mini Loader ***MP100 Plus***

Remote Controlled
High Quality Machines

Made in Italy

MDB: More than 40 years of experience

1977

From initially manufacturing agricultural trailers MDB has come a long way...

...MDB continued its journey with tools and vehicles for refineries...

...to soon focus on remote-controlled high-quality machines...

...aiming for constant improvement and best suited customer solutions through constant innovation...

2020

...today we are still led by our company founder Mario di Biase and strive to meet your expectations by designing and manufacturing all our machines in-house.

Mini Loader MP100 Plus

Safety

- Using the machine guarantees the operator's safety at any time as the machine can be controlled out of a safe distance.
- Easy and intuitive handling
- Run with a single joystick, leaving the second hand free to control all the other commands of the remote control

Light weight and high lifting capacity

- Lifting capacity up to ca. 500 kg
- Maximum loading height of 212 cm
 - 83" (212 cm) hinge pin height easily clears side of a 30-yard dumpster or one-ton truck for maximum jobsite productivity
- Hydraulic self-levelling system keeps the position of the attachment the same in relation to the ground, regardless of the position of the boom.

Speed & Compactness

- Precise steering
- Fast reaction times to operating commands
- Standard attachment plate (Common Industry Interface) with hydraulic remote quick release (patented)
- Small dimensions allow access to various areas (including bucket only 40 inches wide)
- Integrated ride-on platform

Versatile in use

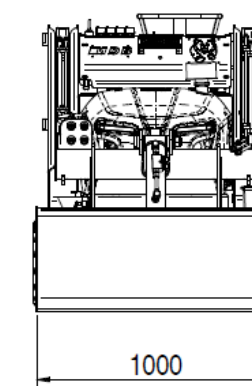

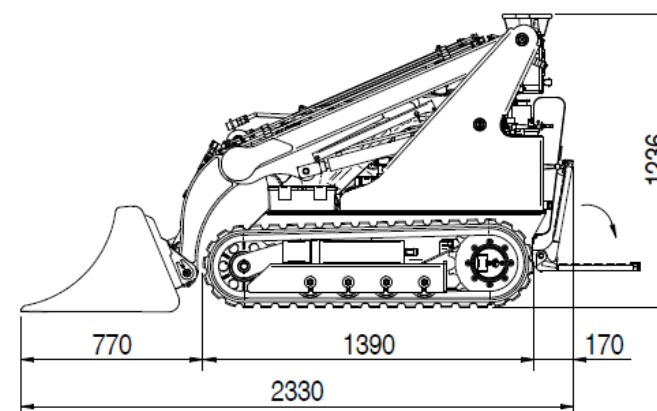

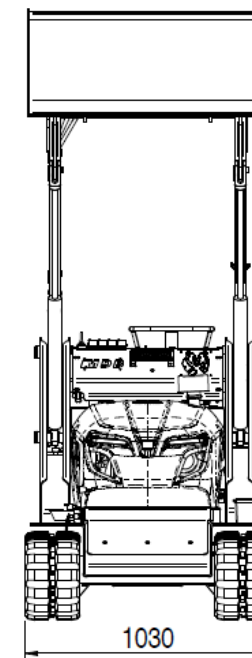

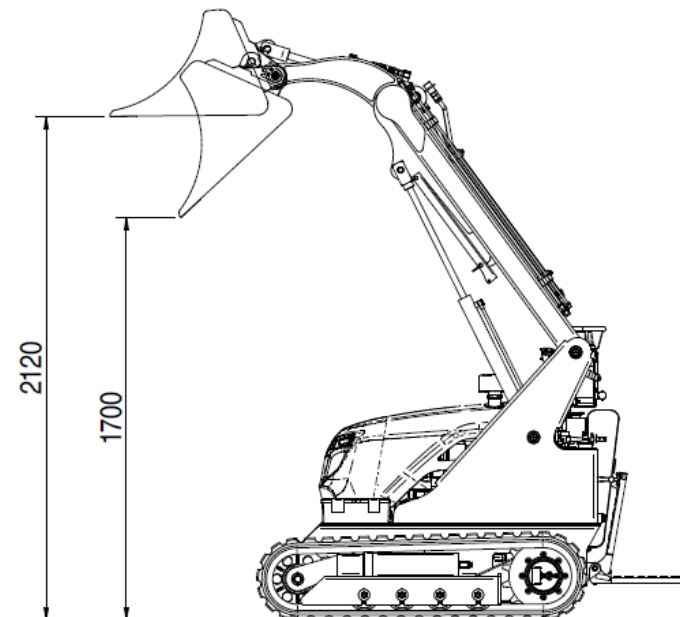

- Possibility to use a wide range of hydraulic attachments
 - Material handlings, demolition work, drilling, clearing of dangerous goods, and much more
- Unbeaten performance when compared to other compact utility loaders of the same category

Specifications

Technical Characteristics

Dry Weight	980 kg
Speed	7 Km/h
Engine	Yanmar Diesel 3TNV80
Cooling System	Liquid
Cylinder	3
Engine Power	21,6 hp @ 3000rpm
Engine Torque	67 Nm
Chassis Width	1540 mm
Fuel Tank Capacity	22 lt – 5,8 gal
Lifting Capacity	350 kg – 770lbs
Max. Loading Height	212 cm – 83 inch
Service Pump	30 lt @180 bar – 8gph
Hydraulic AUX Lines	2 Proportional
Air Filter	2 Stage Heavy Duty
Battery charger RC	Onboard
Pre-Cleaner	MDB Turbine air pre-cleaner
