UNIVERSAL CAMERA WASHING SYSTEM

- Clears dirt and road grime off rear-view cameras on demand
- Included pump creates 12.7 PSI fluid pressure to thoroughly wash off camera.
- Touch pad controller is pressure-sensitive for focused operation.

Buyers Products Universal Camera Washing System clears dirt and road grime off rear-view cameras on demand. Rear-view cameras are typically mounted in a position where they constantly get caked with road salt, mud, dirt, grime, and other debris. A washing system proves especially useful for refuse trucks, trucks in winter climates, and trucks that are used on non-paved roads.

The system features an in-cab touch pad controller for easy operation. Hardware is included to mount to the Buyers Products Standard Camera, but the system can be mounted to any rear view camera.

System includes: 1-1/2 quart tank with easy-install mounting bracket, 9-1/2 ft fluid tube with pressure nozzle, pump to create 12.7 PSI fluid pressure, touch pad in-cab controller, 32 ft power cord, and mounting hardware. The system is 12-24V and can be wired directly into your truck's electric.

Product Common Use: Rear View Camera Washing, Side View Camera Washing, Cargo Observation Camera Washing
