

50 Series Dump Body

Godwin 8' to 20' 50 Series (smoothside) bodies

Godwin dump bodies are manufactured using mill certified 50K steel, and protected with the industry's most durable coatings.

Standard Specs & Features:

- Body lengths from 8' to 20'
- Side heights from 13" to 54"
- Manufactured using only mill certified 50K (50,000 psi) high tensile steel or greater
- High tensile 3/16" one piece steel floor
- Thermoset powder coated zinc primer with powder coated top coat (best in the industry)
- Crossmemberless design understructure with I-beam long sills. 150 Series uses 8" I-beam. 350, 450 and 550 series uses 10" I-beam.
- 10 gauge high tensile sides with integral pressed "V" side braces (quantity based on side height).
- 10 gauge high tensile headboard and single panel (smooth) tailgate
- Grommeted LED marker lights
